

ADMINISTRATIVE INTERNAL USE ONLY

FBIS-1449a/85

2 JUL 1985

MEMORANDUM FOR: Director of Medical Services

STAT FROM:

Director, Foreign Broadcast Information Service

SUBJECT: Request to Hire Diabetic Applicant

STAT 1. FBIS would be interested in hiring [redacted] if
STAT his physical handicap does not seem to pose a prohibitive situation.
STAT [redacted] is an insulin-dependent diabetic.

STAT 2. [redacted] would be hired as an editor and as such would be
STAT required to perform PCS assignments overseas. Before putting [redacted]
STAT in processing, we need to know to what extent being an insulin-dependent
STAT diabetic would inhibit [redacted] assignability. I gather from OPM
guidance that there are a number of complications, such as hypoglycemic
reactions, which could limit his assignability to certain geographical
areas where there are good medical facilities.

STAT 3. I believe our decision on whether to hire will depend on what
limitations are normally imposed by this handicap.
